

Year One

### Where I Live

Children will explore their local area and identify its key features. They will go on a walk around their local area, use compass points and will construct simple maps.

### Let's Go on Safari

Children will compare and contrast their own locality with examples of urban and rural localities in Kenya.

Year Two

### United Kingdom

Through the topics of Fire and Plague and Dinosaurs children will learn about the United Kingdom, to include places, locations and key features.

Year Four

### Extreme Earth

Extreme Earth focuses on the continent of Antarctica, its landscape, climate and its ecological importance in the future sustainability of the Earth. It will also cover other naturally occurring events such as volcanoes.

### Birmingham

Through mapwork and a guided tour of the city centre the children will learn about human and physical features and how urban environments change to meet the changing needs of communities.

### Amazonian Adventure

Children will learn about different ecosystems with a focus on rainforests. They will gain an appreciation of the environmental importance of rainforests and the threats they face.

Year Three

### Blue Planet

Children locate and describe the 5 major oceans and their position in relation to the continents. They consider the human environmental impact in more depth and think of ways to be environmentally responsible and live sustainably.

Year Five

### Trade

Children will learn how our understanding of the world has changed over time. They will learn more about globalisation and trade and increase their knowledge of the diversity of the world in which they live. They will consider how natural resources and climate determines where our food comes from, exploring foods we eat from all over the world.

Through their Journeys topic, children will gain an understanding of the different reasons for human migration and how this impacts on individuals, communities and countries.

### Human Migration

### Europe and Political Change

Through mapwork investigation, children will increase their knowledge and understanding of Europe as a continent and how world events, such as war, can change the political landscape.

Year Six
